Warning against Delta-Stock

Published 11-03-2025

The Danish Financial Supervisory Authority (DFSA) warns against conducting securities trading with the firm Delta-Stock.

Delta-Stock has marketed investment services on the websites www.delta-stock.net, www.delta-stock.com, www.deltastock.io og delta-stock.ai. The firm has no authorisation to operate as an investment firm in Denmark.

If you use an investment platform without a license to trade financial instruments, you are not ensured investor protection. This means, among other things, that investors cannot issue a complaint to The Danish Financial Complaint Board and that the investments are not covered by the Danish Guarantee Fund. Thus, it is unlikely that you will get your money back if things go wrong.

The Danish FSA's [business register](#) contains information on which firms are authorised to offer financial services in Denmark. The Danish FSA's website also contains information on identifying fraud firms and how to avoid them, under [Avoid fraud](#).
